Enabling Pop-ups for Blackboard to View Panopto Videos (Google Chrome)

Panopto is the CUNY SPS video platform integrated in Blackboard. This guide is to help access and view Panopto recordings by allowing pop-ups on their browser.

Enabling pops-ups for Blackboard will allow Blackboard and Panopto to communicate and allow users to view Panopto recordings, by logging users into the Panopto server with their CUNY credentials.

Step 1: Open the Google Chrome browser.

Step 2: In the top right menu select the three vertical dots, followed by Settings.

Step 3: Select Privacy and Security from the Settings menu. Followed by Site settings.
