Enabling Pop-ups for Blackboard to View Panopto Videos (Mozilla Firefox)

Panopto is the CUNY SPS video platform integrated in Blackboard. This guide is to help access and view Panopto recordings by allowing pop-ups on their browser.

Enabling pops-ups for Blackboard will allow Blackboard and Panopto to communicate and allow users to view Panopto recordings, by logging users into the Panopto server with their CUNY credentials.

Step 1: Open Mozilla Firefox.

Step 2: In the top right menu select the menu button three horizontal lines, followed by Settings.
